## A C A D E M Y

### General Information about the School Accountability Report Card (SARC)

#### SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

#### DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

#### California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

## Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

## 2022-23 School Overview

Vista La Mesa Academy is located about 10 miles east of the City of San Diego. It is one of seven schools in the Lemon Grove School District. Vista La Mesa Academy, is located in the City of La Mesa, and is under the governance of the Lemon Grove School Board. We also have partnerships with the U.S. Navy, the Kroc Center, and the La Mesa Police Department as community agencies that help us with our mission.

Vista La Mesa Academy is a Restorative Practices school. All of our teachers and staff are trained in ways to help students to communicate, resolve conflicts peacefully, and to problem-solve as a team. When a member of the Vista La Mesa team has caused a problem with peers, staff, or community, we hold a circle to solve the issue and to find ways to “restore” the team member back to the community. Restorative Practices build important skills in our staff and students and add to our positive, productive school environment.

The Lemon Grove School District and the Vista La Mesa Academy staff work together to develop and implement high academic standards for all students. We have a diverse population that works together as students, parents, community, and staff to provide a safe and academically challenging environment for all students. As educators, we strive to establish positive relationships with our students and their families as well as to deliver high quality instruction in all of our classrooms. All staff work to support our students in expressing their genius, heart, and voice to impact our school community.

Our Mission Statement--developed with teachers in 2017: At VLMA, we value learning and embrace empathy, diversity, positive relationships and collaboration leading to growth and learning. These beliefs help us to lead our cheetah students to set and achieve goals that positively impact their community through cognitive flexibility and self reflection. In support of the mission, our vision for our cheetah scholars is that VLMA is a place where everyone has a voice and that voice impacts and

transforms oneself and others. We strive to cultivate the genius of our students with learning experiences that align with the foundational principles of Culturally Responsive Teaching and the instructional tenets of Culturally and Historically Responsive Teaching. Our cheetah students are diverse in all aspects of life. Despite challenges, they have developed a resiliency that allows them to be critical thinkers who are empathetic to one another at school and in the community.

## School Facility Conditions and Planned Improvements

The District provides services through its Maintenance, Operations and Services (MOS) department. Lemon Grove School District (LGSD) continues to pride itself on maintaining quality facilities to provide a safe learning and working environment for its students and staff. School custodial and district maintenance staff conduct frequent inspections to ensure that all sites are clean, safe, well maintained and in good repair. The Maintenance Department has established preventative maintenance programs, such as bi-weekly site inspections, equipment inspections and timely completion of work orders to ensure all schools are managed at an efficient operating level. All classrooms, playground areas and working spaces for students and staff satisfy building capacity requirements of the Education Code.

### State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

#### Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**  
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

#### SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

#### Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

## Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22
<b>English Language Arts/Literacy</b> (grades 3-8 and 11)	N/A	31	N/A	33	N/A	47
<b>Mathematics</b> (grades 3-8 and 11)	N/A	22	N/A	21	N/A	33

## 2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## 2021-22 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

## B. Pupil Outcomes

### State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

#### 2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Grade 7	91%	94%	96%	94%	96%

## C. Engagement

### State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

#### 2022-23 Opportunities for Parental Involvement

At Vista La Mesa Academy we strongly believe that our students are more successful when we closely partner with our parents who are integral members of our educational team. Parents are actively involved in a number of ways in the development and support of what happens at Vista La Mesa. They provide recommendations for development of our School Plan for Student Achievement through participation on our School Site Council (SSC) and English Language Advisory Committee (ELAC). Parents serve on various school committees and volunteer their time by taking projects home or volunteering in our newly completed Parent Resource Room. Our Parent Teacher's Association (PTA) works to plan events that provide a sense of community to our campus and engaging families in making lasting connection with one another.

Parent involvement is greatly valued at Vista La Mesa. We currently employ a Parent Volunteer Coordinator to work with our school community to support and develop critical partnerships between our school community and our campus. We also encourage parents to participate in our PTA and various other committees. In collaboration with the Lemon Grove School District's Parent Engagement Specialist, Vista La Mesa offers numerous opportunities for parents to engage in dialogue and connect with one another. Some examples are community circles, parent workshops, and advisory committees.

Vista La Mesa continues to expand our partnership with the US Armed Forces and we host several military parent events and participate in the Anchored 4 Life program which provides resources to all students while building student leadership on our campus. Please contact our Principal, Tracie Audifferen, or Micky Quach, our Volunteer Coordinator, for opportunities to be involved in one of our organized parent groups or to learn about volunteering at Vista La Mesa Academy.

#### State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

## Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

Subject	School 2019-20	District 2019-20	State 2019-20
Suspensions	0.45	2.03	2.45
Expulsions	0.00	0.00	0.05

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22

## 2022-23 School Safety Plan

In an effort to ensure a safe learning environment for all students, we continue to implement a valet drive thru pick-up and drop-off system. Students are monitored in the morning by credentialed staff as they enter campus, receive breakfast, and eat outside the classroom. At the end of the day, classes are organized by grade on the blacktop while administrators safely assist students to their cars using the valet drive-thru.

Another area of focus for a safe climate is our campus implementation of restorative practices. We have trained teachers in restorative circles which are utilized to help students problem solve when conflicts arise. Morning circles are implemented frequently to develop classroom climate and to support students in learning social emotional skills (utilizing SEL curriculum-Second Step and In-Control). We have a restorative practices lead teacher who has been trained and implements daily restorative practices with small groups or individual students. Our plan is to continue this training site-wide through various professional development opportunities over the course of the next two years.

Additionally, we are continuing to develop our Multi-Tiered System of Supports team. This team meets bi-monthly to discuss a variety of behavioral and instructional needs and to develop resources for supporting these needs. We have designed a tiered discipline policy to support and empower students and teachers in handling low level behaviors. The policy helps to also outline additional supports and strategies for higher level behaviors to be utilized prior to suspension. Additionally, we have implemented a tier II reading intervention plan for first through sixth grade. The support team consists of classroom teachers, intervention teacher, resource teachers, and paraprofessionals. Our MTSS team reviews data and progress at each meeting to determine effectiveness of instruction. The MTSS team supports our school-wide development by providing training during staff meetings, observing classrooms, and opening up their classrooms for observations as well.

Vista La Mesa Academy strives to provide a safe and effective learning environment for all students and staff. Our committee meets each November and December to reflect on the previous year's goals and collaborate on new goals for the upcoming school year. The goals for this school year were established by the School Safety Committee on November 29, 2022 and were approved by the School Site Council on December 14, 2022.

## 2021-22 Types of Services Funded

In order to help VLMA students succeed, our school offers a number of supports beyond regular classroom instruction. These supports were implemented through a combination of federal and state funds that supported students both during and beyond the school day.

These activities include:

- After school tutoring support for grades 2-8
- Small group leveled reading for grades K-6 utilizing online Benchmark Advance resources
- iReady adaptable software for grades K-8 to support reading and math
- Full-time Academic Instructional Coach to support teacher learning and growth through cycles of inquiry and co-teaching of lessons using a variety of learning engagement techniques.
- Multilingual Learner support through daily 30 minute small group ELD
- Weekly Bilingual Instructional Aide (BIAs) support for Long Term English Learners and EL students who need additional assistance.
- Additional online learning programs purchased to support classroom instruction
- Personal Math Trainer was used to reinforce skills in all classrooms K-8 as students were introduced to new content
- Heart and Sole mentoring and running program for girls in grades 4-8.

## Professional Development

This year, our elementary site along with two other sites in the district, have partnered with mathematical trainers to equip our teachers with instructional understanding of Cognitive Guided Instruction (CGI). Trainers work with our teachers to develop their understanding of student centered mathematical practices. Teachers received two full day in-service opportunities and four additional half day professional development. This redesign of mathematical instruction will be supported for the next two years as we grow the pedagogical practices of our teachers.

To address these many changes, professional development at the district and site level has addressed areas based upon state and district assessment data showing needs; as well as equity for all students. Site level Professional Development is delivered in 2-3 dedicated staff development days per year, as well as on site workshops, teacher grade level collaborative groups, and staff meetings. Listed are a few of the main content areas focused on for the 2022-2023 Professional Development cycles:

- New Teacher Orientations are provided each year to support new educators to become acclimated with the systems, curriculum, and district expectations.
- 2 Elementary teachers are piloting a variety of Science textbooks for upcoming adoptions
- 2 Elementary teachers are piloting a variety of Social Studies textbooks for upcoming adoptions
- Grades TK-6 ELA and Math: professional development through a full time Instructional Coach to support the implementation of student driven coaching cycles focused on areas of need.
- Grades TK-6 Collaborative Time for Teacher Development: the district supports the Art, Science and Physical Education (AMPS) program to release grade level teams for 150 minutes, 1-2 times per month for planning and development in all subject areas.
- Culturally and Historically relevant teaching and learning has been a continued site focus for professional development (2020-ongoing).
- District led Universal Design for Learning to support instructional strategies for all learners continues to be a district focus for all teachers (2020-ongoing).
- Co-teaching model focus for RSP teachers and general education teachers
- Grades 7-8: Collaboration with subject matter teachers across the district (monthly)
- iReady Data Cycles: Our staff PD focuses on data cycles using iReady beginning of the year and mid year data
- Quarterly site based EdLearn opportunities in the 2022-2023 school year have focused on Culturally Responsive Pedagogy and equity practices.
